Education

Bhagwan Mahavir University, Surat	**2020 - 2024**
Bachelor of Computer Applications(BCA).	
Ankur School Of Commerce, Surat, Gujarat	**2019 – 2020**

Experience

SkillQode	**2023 – 2024**
Training	*Surat, Gujarat*

- Completed comprehensive training in ReactJS with a focus on building interactive 5+ web applications.
- Gained hands-on experience with Tailwind, CSS Modules, and Styled Components for responsive design.
- Learned 10+ advanced concepts like component lifecycle, error boundaries, and performance optimization in React app.
- Collaborated with team of 5 on projects utilizing Git for version control.

Projects

Food-Del Platform | *ReactJS, NodeJs, Express, MongoDB, Tailwind, Stripe*   **Aug 2024**

- Developed 1 food-delivery application using React, NodeJs, Express, and MongoDB for a full-stack solution.
- Built the frontend using Axios for API calls, Context API for state management, React Router for navigation.
- Implemented cloud authentication with bcrypt for password hashing and JWT for secure user sessions.
- Used CORS and body-parser middleware to handle cross-origin requests and parse request data, Integrated Stripe for payment processing

Plant Garden | *ReactJs , Javascript , Tailwind , Auth0 , Formik*   **July 2024**

- Built 1 eCommerce platform using ReactJS, providing an intuitive, user-friendly shopping experience with responsive design.
- Managed state for cart functionality, product filtering and wishlist management using JavaScript, React Hooks, and Redux.
- Integrated 20+ Toastify notifications for cart and wishlist actions, providing users with real-time feedback and a polished user experience.
- Integrated Auth0 for secure user authentication and used Formik for form validation (registration and checkout), ensuring users must log in before proceeding to checkout with real-time error handling and data validation, ensured 99% user auth security.

Ninico E-Commerce | *ReactJs, JavaScript, Redux, Tailwind*   **June 2024**

- Developed 1 eCommerce platform using ReactJS, focusing on clean design and smooth user experience.
- Integrated React Router for seamless navigation across product pages, categories, and user account sections.
- Designed and developed reusable components such as product cards, category lists, and checkout forms for consistency and modularity, resulting in 30% code reusability.
- Integrated 15+ Toastify notifications for cart and wishlist actions, providing users with real-time feedback and a polished user experience.

Vuexy Dashboard | *HTML , CSS*   **Feb 2024**

- Developed a fully responsive admin dashboard using the Vuexy HTML Admin Template with HTML5 and CSS3.
- Integrated CSS Grid and Flexbox for creating fluid, multi-column layouts adaptable to various screen sizes.
- Enhanced user experience with interactive elements like dropdowns, modals, and sidebars using pure CSS animations and transitions.

Technical Skills

Languages: HTML, CSS, Javascript
Technologies/Frameworks : ReactJs, Linux, Tailwind, NextJs(Basic), Git, NPM, Rest API,

Computer Science Domain Skills / Course works

- Linux
- DSA
- Git
- Databse

Extracurricular Activities

Inter-College Table Tennis | *Volunteer, Leadership*   **January 2022, BMU**

- Managed the college event and oversaw the entire event by delegating tasks to my team.
